

CREATING AN EXCEPTIONAL PIERCING EXPERIENCE

1. Greeting

Welcome your customer and mention piercing in your greeting. "Hi, welcome to Banter! Are you here to get a piercing today?"/"Are you here for your piercing appointment?"

2. Add Your Customer to Clienteling

If they've shopped with us before, welcome them back! Do they have their Banter card with them? If not, this is the beginning of a beautiful friendship! Be sure to enrich their profile and update their Wishlist during the interaction.

3. Walk Them to the Piercing Jewelry Selection

"Come with me, I can show you our pre-sterilized piercing earrings and piercing jewelry selection!" Review Best, Better, Good. You're the expert! Use your knowledge & skills to guide the customer to a selection that is perfect for them. Be sure to mention Payment Options and ESAs.

4. Set Up Their Follow-up Appointment

"We want to see you back in "x" weeks to check on the progress of your healing. Which day of the week works best for you? We also offer a change service. Let's pick out another pair of earrings or body jewelry so when you come back I can make sure they're healed perfectly, change your earrings and set up your next piercing!"

*Note that change services are not offered for device nose piercings at this time.

5. Piercing Attachment

Whether your customer is just starting their jewelry wardrobe or already have a collection, there is always room for more sparkle! Suggest new items or complementary pieces based on their style. What future occasions do they need to shop for? *After your customer chooses additional items, grab their piercing choice and aftercare solution.

6. Offer Aftercare and Review Instructions

Inform your customer they will need aftercare solution for optimal healing of their new piercing. Present the aftercare brochure as a visual and review the frequency and process for cleaning. Be sure to speak to the benefits and provide Advanced Care as the recommended option for device piercings. Both Advanced Care and H2Ocean should be presented for body piercings. Offer additional bottles for on the go.

7. Process the Transaction

Now is a great time to revisit the payment options & ESA benefits you have mentioned before!

8. Conduct the Piercing

It is your time to shine! Make this an experience your customer will not forget or find anywhere else. Ask them to Spill the Tea on Google after so other customers in the area will know the benefits of coming to Banter for a piercing. Offer to take a photo for your customers and encourage them to post on their Socials using the hashtag #Banter.

9. Review Aftercare Instructions

Proper cleaning is essential! Your customer may not have heard you due to nerves, so let's remind them of the process and their Follow-Up Appointment date/time.

10. Thank Your Customer for Sharing Their Special Moment

Thank your customer for allowing us to share their special moment with them. Later during the week, send your customer a Thank You email through Clienteling to follow up and thank them for their visit. This will help drive additional transactions and elevate your relationship with your customer.

11. Before the Follow-Up Appointment Date

Call your piercing customers a week in advance and the day before to remind them and confirm their appointment time/date. Let them know about any upcoming promotions running during that time and add any notes to their Clienteling Wishlist.

*PRO TIP

Appointments should be checked minimally every morning and afternoon. Appointments should be a fun and memorable experience, just like the piercing process! These steps will ensure you solidify a customer for life.
